Career Objective

Aspiring MERN Stack Developer eager to contribute technical skills and passion for web development to build efficient and scalable applications. Seeking a challenging role to grow professionally and add value to the organization.

Education

Bachelor of Vocation (B.Voc) – Computer Applications
Dayalbagh Educational Institute, Agra — Completed in 2025

Technical Skills

Frontend: HTML, CSS, Tailwind CSS , JavaScript, React.js , Redux Toolkit
Backend: Node.js, Express.js
Database: MongoDB
Tools: Git, GitHub, Postman, VS Code
Other: REST API, JWT, Cloudinary, Responsive Design

Projects

1. Learning Management System (LMS)

   - Designed and developed a fully responsive, full-stack LMS platform with role-based authentication Admin, Instructor, Student and secure JWT-based login system.
   - Implemented course creation workflows with media (image/video) upload functionality via Cloudinary.
   - Ensured clean and modern UI using Tailwind CSS with mobile-first responsive design.
   - Followed RESTful architecture and Git-based version control for efficient collaboration and scalability.

2. Food Order Website

   - Developed a responsive frontend application for browsing and ordering food items.
   - Implemented filtering functionality to sort food by category, price, and type.
   - Used Redux Toolkit for efficient global state management and cart handling.
   - Ensured mobile-friendly UI with a clean and modern design.

Certifications

• Complete Web Development Bootcamp – CodeHelp by Babbar
• JavaScript Essentials – CodeHelp
